

Be Inspired: Music tours to Costa Rica

Plan a music tour to one of the world's happiest countries. OneStage are thrilled to offer a unique experience for your ensemble with a music tour to our first tropical destination in Central America.

WILD COSTA RICA

The rainforests are teeming with wildlife, including insects, birds, sloths and monkeys. The Caribbean and Pacific coastlines have breathtaking beaches with rainforest backdrops, volcanoes rise out of the jungle and as you board a boat for a river cruise through the jungle you will realise you are a world away from the UK.

ADVENTUROUS COSTA RICA

Costa Rica offers the opportunity for plenty of adventurous excursions. Sky-walking the high rope bridges, trekking in the national parks and touring volcanoes. If you're feeling less adventurous then there are butterfly sanctuaries, wildlife rescue centres, coffee plantations and beautiful beaches to visit.

An intrepid tour for adventurous musicians!

MUSICAL COSTA RICA

Costa Rica has a strong folk music tradition and some unique instruments, which you will have the opportunity to experience throughout your stay. Dance and music go hand in hand in Costa Rica and salsa, samba, merengue and cumbia are popular styles of dance music. The marimba features strongly alongside Latin style rhythms. Your performances can take place in churches, auditoriums and museums with audiences made up of locals, tourists and officials welcoming visiting musicians.
